Hi Patty--tough news to hear you're leaving, but I really understand and appreciate your choice.

Know that you have made a big difference in R10 and you can be proud of the work you put in and the changes you brought about. You also brought tremendous credibility to EPA in Alaska at a time when it was most important and also almost impossible to obtain.

Thanks for everything and good luck to you on your new path. I hope our paths cross along the way and things all work out magically for you--you deserve it.

Take care.

While I am excited about my new job with Tetra Tech, I will miss working with you and my other EPA
colleagues. Words can't really describe the mixed feelings that I have.

I am grateful to have had the opportunity to work with so many people that are committed to caring for the
environment and public service. I am grateful also to have gotten to know many of you on a personal
level. The way we have been able to support each other through challenging times has made my work
with EPA even more fulfilling.

I have never been good at good-byes, so I will just say take care and please keep in touch.

- Patty
